Message to landowners, regarding PSC legal challenges

Updated Jan. 5, 2020

Recently, several legal challenges have been filed against the Public Service Commission of Wisconsin regarding its approval of the Cardinal-Hickory Creek Transmission Line Project.

Please be advised that these challenges do not affect advancement of the project. The issuance of the Certificate of Public Convenience and Necessity in September 2019 allows ATC, ITC Midwest and Dairyland Power Cooperative to move forward with next steps, including performing required environmental and archeological studies, working with landowners and other pre-construction activities.

We will continue to monitor these legal proceedings and post additional updates on this link as appropriate. If you have any questions in the interim, please feel free to contact ATC at 866-899-3204 ext. 3540 or ITC Midwest at 319-297-6794.
